

SUBIN K K

LEAD QUALITY ANALYST

Bangalore | subinpilanhi7@gmail.com | +91-8073386274

SUMMARY

Quality Assurance professional with 6+ years of experience in software testing, specializing in web and mobile application testing, ServiceNow platform testing, and quality process improvement. Experienced in manual testing, API validation, regression testing, and defect management with a strong focus on improving product stability and user experience.

PROFESSIONAL EXPERIENCE

Lead Quality Analyst	Bitzmatic	2024 - Present
- Lead QA activities for web and mobile applications, ensuring product quality across multiple releases. - Design and implement comprehensive test strategies, test plans, and test cases based on business and technical requirements. - Perform functional, regression, usability, and end-to-end testing across web platforms and mobile applications. - Coordinate with developers, product managers, and business stakeholders to clarify requirements and resolve issues efficiently. - Track and manage defects using bug tracking tools and ensure timely resolution through effective defect lifecycle management. - Mentor junior QA engineers and guide the team in improving testing standards, documentation, and quality practices. - Conduct release validation and production smoke testing to ensure application stability before deployment.		
ServiceNow Quality Analyst	UST	2021 - 2024
- Developed and maintained test plans, test cases, and test scenarios for ServiceNow applications and integrations. - Executed functional, regression, and performance testing across ServiceNow modules including: Incident Management, Change Management, Service Catalog - Performed end-to-end validation of ServiceNow workflows, customizations, and integrations. - Identified, documented, and tracked defects using standard defect tracking tools. - Conducted root cause analysis and collaborated with development teams to resolve issues effectively. - Executed testing during ServiceNow upgrades and patch releases to ensure system stability. - Automated repetitive test scenarios using ServiceNow Automated Test Framework (ATF).		
Quality Analyst	Proxima Tech Labs	2020 - 2021
- Performed manual testing for web and mobile applications to ensure functionality and usability. - Designed and executed test cases based on project requirements and functional specifications. - Conducted Functional, GUI, Smoke, Sanity, and Regression testing. - Reported and tracked defects while ensuring proper documentation of testing results. - Collaborated with developers to verify fixes and perform retesting and regression testing. - Assisted in maintaining and updating testing frameworks and test documentation.		

PROJECTS

FreshNet- Mobile E-Commerce Platform

Freshnet is a mobile-based e-commerce platform that allows customers to purchase groceries and vegetables and get them delivered to their doorstep. The application includes a custom-built backend system where administrators can manage product listings, upload daily deals and offers, and update inventory.

Responsibilities:

- Led the quality assurance activities for the Freshnet mobile application, ensuring smooth functionality across multiple mobile devices and platforms.
- Created and executed detailed test cases and test scenarios based on business and functional requirements.
- Tested key features such as product search, category navigation, cart management, checkout process, and order tracking.
- Identified and reported defects, worked closely with developers to resolve issues, and performed retesting and regression validation before releases.

HEB- ServiceNow ITSM Platform

Responsibilities:

- Performed functional testing of ServiceNow ITSM modules, including Incident Management, Problem Management, and Change Management.
- Validated end-to-end workflows, ensuring tickets were created, assigned, updated, and resolved according to defined business rules.
- Tested approval workflows and change request processes to confirm correct routing and authorization at different stages.
- Verified chatbot integration with ServiceNow, ensuring users could create incidents and retrieve information through automated conversations.
- Executed regression testing during platform updates and enhancements to ensure existing functionality remained stable.
- Logged and tracked defects, collaborated with developers and administrators, and verified fixes through retesting.

OSG- ServiceNow ITSM Platform

Responsibilities:

- Tested multiple ServiceNow ITSM modules including Incident, Problem, Change Management, and Service Catalog.
- Validated service request workflows, ensuring catalog items functioned correctly and requests were processed as expected.
- Performed integration testing between ServiceNow and JIRA, ensuring tickets were properly synchronized between both platforms.
- Conducted functional and regression testing to validate system stability after enhancements or configuration changes.
- Worked closely with developers and administrators to resolve issues and ensure smooth implementation.

TOOLS & TECHNOLOGIES

- Manual Testing
- JIRA
- LAMBDA Testing
- ServiceNow
- ServiceNow ATF

EDUCATION

Batchelor Of Computer Applications - Manipal University (Pursuing)

Diploma In Computer Engineering - NTTF

ADDTIONAL INFORMATION

- Languages: English, Malayalam, Hindi
- Certifications: Google Analytics, ServiceNow ATF
